Skills

- C | C++ | Python | HTML | CSS | Javascript | MySQL | DBMS | VScode
- React JS | Redux Tool Kit | Tailwind CSS | Typescript | Git | Github | Data Structures and Algorithms
- Java | OOPs | Spring Boot | RESTful Web Services | Spring Security | Docker | Microservices Architecture
- Problem-Solving | Competitive Programming | English – **All professional proficiency or above**

Education

Bachelor of Technology

Jawaharlal Nehru Technological University

Sangareddy, Telangana, India

Major in Computer Science and Engineering GPA : 7.41

08/2019 - 07/2023

Projects

E-Commerce Website (Redux Toolkit and Tailwind CSS)

- Implemented a robust shopping cart with Redux Toolkit for state management and allowing users to add and delete items.
- Added different categories, each with filters based on gender,color,size, and price, managed using Redux Toolkit.
- Combined Redux Toolkit and Tailwind CSS to create a seamless, modern e-commerce experience with efficient state management and appealing styling..

Blog App (React JS and Tailwind CSS)

- “Blog App” combines a Node.js static server storing blog data with React.js frontend and sleek TailwindCSS styling.
- The server efficiently manages blog content ,ensuring fast retrieval and scalability, while React.js creates an interactive interface.
- Tailwind CSS enhances the design aesthetics,providing a polished and modern look for the blog app across various devices.

GameHub App (React JS,Type Script,Chakra UI)

- GameHub is an interactive online gaming platform designed to provide users with a diverse selection of games for entertainment.
- Developed using React.js, TypeScript, and Chakra UI, this web application offers a seamless gaming experience with an intuitive user interface.

Amazon Home Page(HTML and CSS)

- The Amazon Home Page Clone is a faithful reproduction of the renowned e-commerce giant's homepage, developed using HTML and CSS.
- This project aims to replicate the look and feel of Amazon's homepage, providing users with a familiar and intuitive browsing experience similar to the original website.

Certifications

React 18 for Beginners([Code With Mosh](#))

React 18 : Intermediate Topics([Code With Mosh](#))

Activities & Achievements

- Volunteered as a **Python** and **Web Development Mentor** at College Technical Fest. Mentored participants on fundamental Python programming concepts and web development concepts including **HTML** and **CSS**.
- Demonstrated proficiency in solving problems on various platforms like leetcode, employing C++ as the primary programming language.[Link](#)
- Achieved highest rating of **1296** in CodeChef, contest rating of 1116 in Codeforces.
