Bachelor of Technology

Jawaharlal Nehru Technological University

Sangareddy, Telangana, India

- Major in Computer Science and Engineering **GPA : 7.41**

08/2019 - 07/2023

Projects

[Blog App using React JS and Tailwind CSS](#)

- “Blog App” combines a Node.js static server storing blog data with React.js frontend and sleek TailwindCSS styling.
- The server efficiently manages blog content ,ensuring fast retrieval and scalability, while React.js creates an interactive interface.
- Tailwind CSS enhances the design aesthetics,providing a polished and modern look for the blog app across various devices.

[Portfolio using ReactJS and Tailwind CSS](#)

- Created with React.js and Tailwind CSS, my portfolio showcases my skills, projects, and experiences in an interactive manner.
- Tailwind CSS ensures that my portfolio looks polished and professional across all devices, from desktops to smartphones.
- Visitors can easily navigate through my portfolio to discover my capabilities and achievements, making it a powerful tool for showcasing my work.

[Gamehub App using ReactJs,Typescript and Chakra UI](#)

- Game Hub is an interactive online gaming platform designed to provide users with a diverse selection of games for entertainment.
- Developed using React.js, TypeScript, and Chakra UI, this web application offers a seamless gaming experience with an intuitive user interface.

[Amazon Home Page Using HTML and CSS](#)

- The Amazon Home Page Clone is a faithful reproduction of the renowned e-commerce giant's homepage, developed using HTML and CSS.
- This project aims to replicate the look and feel of Amazon's homepage, providing users with a familiar and intuitive browsing experience similar to the original website.

Certifications

React 18 for Beginners([Code With Mosh](#))

React 18 : Intermediate Topics([Code With Mosh](#))

Activities & Achievements

- Volunteered as a **Python** and **Web Development Mentor** at College Technical Fest. Mentored participants on fundamental Python programming concepts and web development concepts including **HTML** and **CSS**.
- Demonstrated proficiency in solving problems on various platforms like leetcode, employing C++ as the primary programming language.[Link](#)
- Achieved highest rating of **1296** in CodeChef, contest rating of 1116 in Codeforces.
